

**SECURE SUCCESS FOUNDATION NOW ACCEPTING GRANT APPLICATIONS FOR
HURRICANE VICTIMS**

Foundation Provides Relief Efforts For Those Affected By Harvey and Irma

RESTON, Va. (September 29, 2017) — Secure Success Foundation (the “Foundation”), a registered 501(c)(3) charitable organization, is pleased to announce it is now accepting grant applications from qualified private contractors who have been affected by hurricanes Irma and Harvey. The charity was established with the financial support of former and current owners of Constellis. Its mission is to provide financial support to private contractors and/or their families who have been seriously injured or killed while performing services for the U.S. government.

Hurricane Harvey and Irma caused catastrophic flooding in its wake across eastern Texas, western parts of Louisiana and Florida. The flooding has immersed thousands of homes in water, and displaced more than 30,000 people and animals. It is of the utmost importance to the Foundation that we assist those who have sacrificed for their job, for their country and for our freedom.

The Foundation will provide needs-based grants to private contractors and their families to assist with post-secondary education, health and welfare costs.

Eligibility for grants will go towards those who meet the following criteria:

- Individuals who serve, or have served, as private contractors (or the estates of deceased individuals) under contracts to perform services for the U.S. Department of State, U.S. Department of Defense, U.S. Central Intelligence Agency; and
- Who are seriously injured or killed during service and would otherwise be eligible for Department of Defense or Veteran’s Administration benefits if such individual served in the U.S. military; and
- Who have demonstrated financial need.

You can apply for a grant by visiting www.securesuccessfoundation.org. Potential recipients can also email info@securesuccessfoundation.org for more information.
